

100% Natural Silk

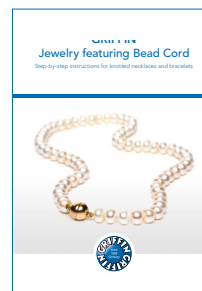

For centuries, silk has been the material traditionally used to create necklaces. Premium 100% Natural Silk is only ever made using the high-quality centre (filament silk) of the silk cocoon thread and is twisted three times. This gives it that characteristic irresistible sheen and lovely silky smoothness. Available in 21 natural colours and 13 different thread sizes.

Unique benefits of 100% Natural Silk:

- The special stringing needle attached makes stringing beads on quick and easy
- No additional needle necessary
- No need to double thread when stringing on and tying beads
- Outstanding tying properties
- Twisted three times to avoid fraying
- No tangling, no knotting
- Strong, break-proof and flexible
- Using natural silk, when knotting necklaces guarantees perfect positioning on the body

Materials for the necklace

- 100% Natural Silk (with 1 needle attached), No. 4, light pink
- Round Cultured Pearls, Ø 8.0 mm, light pink
- 1 Soldered Jump Ring
- 1 S-Hook Clasp, 20.0 mm

Recommended tools

1 pair of long Knotting Tweezers

1 High Precision Shear

1 tube of Bead Cord Glue

Step-by-step guide . beaded necklace

String on three beads and push them to the end of the thread (secure with slipknots if necessary).

Tie on an S-Hook Clasp (create knots by inserting the tweezers into a loose knot and sliding it tight against the pearl).

Pass the thread back through the first bead. Push the beads along to the clasp and tie the two threads tightly together.

Tie the remaining beads one after another in the same way. Then disregard the shorter thread.

String on all of the beads one after another (apart from the last three) and tie a knot after each of the beads.

String on the last three beads without tying knots and pass the needle through the Jump Ring and back through the last bead.

Push the beads together and tie a knot. Pass the thread through the next bead and tie a knot. Pass the thread through the third bead and tie a knot.

Glue the first and last three knots on the chain with GRIFFIN Bead Cord Glue. Trim excess threads.
